

ENTERPRISE

INTERNET SOLUTIONS

AWS IS CLOUDCONNECT SOLUTION OVERVIEW

INTERNET SOLUTIONS' PARTNERSHIP WITH AMAZON WEB SERVICES (AWS) – DIRECT CONNECT

Our partnership with AWS enables us to offer our enterprise clients managed networking cloud services to help them overcome the barriers of moving to the cloud and to accelerate their cloud adoption.

As an APN (Amazon Partner Network) partner, Internet Solutions enables enterprise clients to extend their on-premise infrastructure to AWS. Leveraging AWS Direct Connect, Internet Solutions CloudConnect service provides

enterprise-grade, private and dedicated connectivity with committed SLA-backed service quality.

Internet Solutions' Direct Connect capabilities make it easier for an enterprise client to connect to AWS, offering a range of benefits such as reduced network costs, increased bandwidth throughput and consistent network experience than Internet-based connection. Internet Solutions already connects many enterprise clients to the AWS cloud across industries. And we support you every step of the way on your cloud journey.

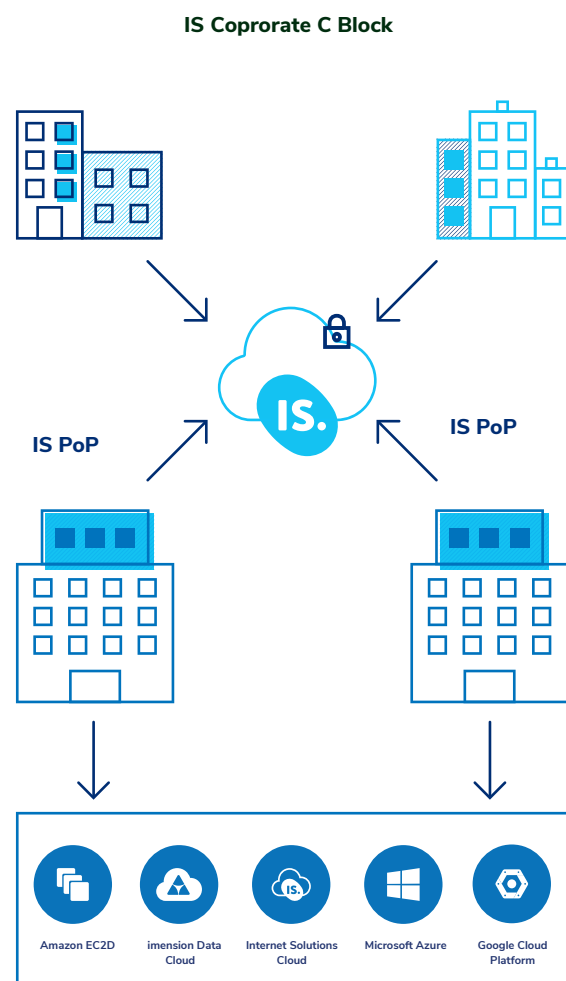

CLOUDCONNECT: FASTER AND MORE SECURE CLOUD NETWORKING

Internet Solutions' CloudConnect service offers businesses a superior cloud networking experience when compared to public Internet.

Internet Solutions understand the value digital transformation brings to enterprise clients and the challenges to make this happen.

Cloud computing is a key enabler for many organisations and Internet Solutions helps you focus on your business applications by providing a superior end-to-end client experience thanks to a private premium connectivity.

KEY FEATURES AND BENEFITS FOR YOUR BUSINESS

FEATURES	BENEFITS
Global AWS Partner	Internet Solutions is one of AWS Direct Connect global partners
Scalable bandwidth	With CloudConnect you can increase or decrease your bandwidth in line with your business needs
Enhanced security	Secure access to your core applications. Traffic between any client site and Direct Connect access PoP routed entirely across Internet Solutions network, so that clients can be assured that their mission-critical traffic is safe
Costs savings	No additional infrastructure expenses, minimising capital investments and reducing operating costs
Predictable service performance	Predictable performance and superior user experience with dedicated, low latency, high speed direct connectivity to AWS
SLA	Dedicated, private and secure connectivity with end-to-end SLA
Total Cost of Ownership (TCO)	CloudConnect helps you reduce Total Cost of Ownership (TCO) by reducing the need to invest in large capital expenditures and providing a pay-as-you-go model that empowers you to invest in the capacity you need and use it only when the business requires it

AWS CLOUD LOCATIONS

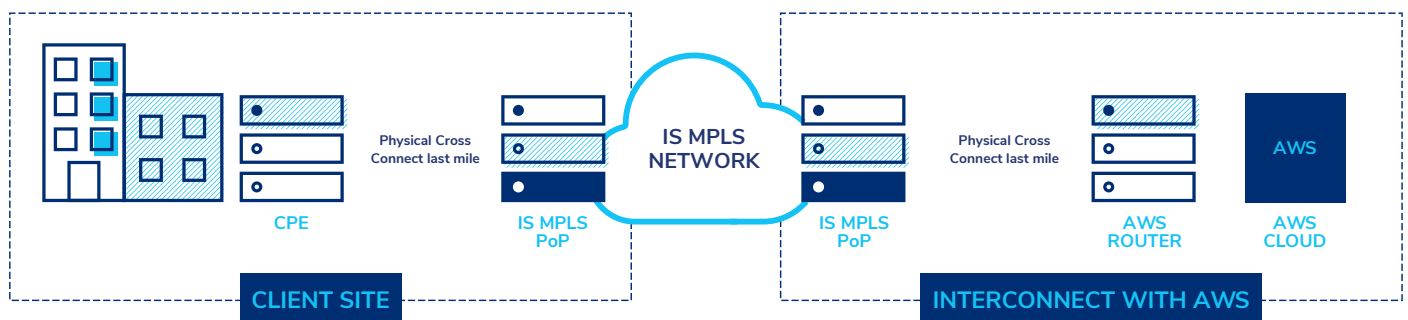

Internet Solutions provides fibre based MPLS VPN connectivity to AWS via our NNI in South Africa and United Kingdom. Clients can connect to any AWS Region across AWS global footprint subject

to AWS Data transfer OUT charges applicable between the source AWS Region and AWS Direct Connect location.

SERVICE FEATURES

Internet Solutions' CloudConnect is based on MPLS VPN solution and is ideal for clients who want to

share AWS access to one site or across multiple sites.

Internet Solutions supports both hosted and dedicated port AWS Direct Connect service variants. Hosted port supports sub 10Gb bandwidth increments through a shared NNI or

Interconnect with AWS. Dedicated port supports 10Gb bandwidth and is offered on request with a x-connect to AWS that is dedicated to you.

SUPPORTED CLOUDCONNECT BANDWIDTH INCREMENTS:

CLOUD CONNECT BANDWIDTH INCREMENTS	CONNECTION INTO AWS	PHYSICAL X-CONNECT	VPN MPLS
50Mb/100Mb/200Mb/ 300Mb/400Mb/500Mb/1Gb	Hosted connection	⊗	⊙
10Gb	Dedicated 10Gb port	⊙	⊗

PRICING

Through CloudConnect, Internet Solutions provides AWS Direct Connect access to your cloud applications at a fixed monthly cost depending on the connection speed.

In addition to Internet Solutions connectivity monthly costs, AWS will also charge you port and data transfer out monthly fees. You can find out

more about AWS Direct Connect charges on their portal or via this link: <https://aws.amazon.com/directconnect/pricing/>

Data Transfer OUT pricing is dependent on the source AWS Region and AWS Direct Connect location. Data transfer IN is \$0.00 per GB in all locations.
